Discussion		

For co-authored dissertations, clarify the sections for which the applicant and each coauthor were responsible, indicating that the applicant played a central role.

j Report on the Applicant's Contribution (Optional format)

自己担当部分についての報告書

I developed an interest in researching "genetic abnormalities in esophageal cancer" and, focusing on the oncogene cyclin D1 among many reported cancer genes, examined the amplification of the cyclin D1 gene, expression of cyclin D1 mRNA and protein, localization, and the clinical significance of cyclin D1 protein overexpression in esophageal cancer.

The esophageal cancer tissues resected and provided for clinicopathological diagnosis by Professor [Name] and Associate Professor [Name] of the [Department] at Shiga University of Medical Science were examined by Professor [Name] from the [Other Department] and used as data for clinicopathological analysis. Gene amplification (Southern blot method) and mRNA expression (in situ hybridization method) were conducted under the guidance of Professor [Name], and immunohistochemical staining was performed under the guidance of Assistant Professor [Name] in the [Department] at Shiga University of Medical Science.

I wrote the paper and created the figures and tables, receiving guidance on phrasing and interpretation from Professor [Name] in the [Department] at Shiga University of Medical Science. The paper was subsequently reviewed by Professor [Name] and Associate Professor [Name] of Shiga

University of Medical Science.

Enter the total number of authors, including the applicant.

If there are more than four co-authors (including the applicant), write a reason.

【著者数が×名に至った理由】

(※共著者が申請者本人を含めて4名を超えない場合は記入不要)

Due to the extensive and specialized nature of the experimental research, as well as the use of surgical resection materials, significant guidance and advice were received from Professor [Name], Associate Professor [Name], and Assistant Professor [Name] in the [Department] at Shiga University of Medical Science, along with Professor [Name] in the [Other Department] at Shiga University of Medical Science. As a result, the total number of authors reached [Number].

If there are no more than four authors, including the applicant, this does not need to be filled in.
